

TRAVELINX provides the best of both worlds - designed specifically with the business traveler in mind and providing the flexibility and ease of use found in most leisure facing itinerary management tools. It has the security and controls a corporation requires, fully PCI compliant and is backed by TRX's rigid data security standards; meeting federal, state and local government security requirements. TRAVELINX is also a feature rich personal assistant, placing all of the must-have information at a traveler's finger tips such as a trip itinerary; airline, car rental, hotel booking details, making it easy to plan, book and manage business travel.

The screenshot shows the TRAVELINX web application interface. At the top, there is a navigation menu with links for Home, Tour, About Us, My Trips, Travel Planner, and Sign Out. A user is logged in as `tickets@travelinx.uservice.com!`. The main section is titled "My Trips" and has two tabs: "Upcoming Trips" (selected) and "Past Trips". Under "Upcoming Trips", there is a section for "Your Trip May 2011" with the email `(williamdavid.jackson@gmail.com)`. The trip details listed are: "DEN to LAX on May 12, 2011", "Hotel Stay in Los Angeles, CA", and "Car pickup at LAX". Below the text is a map of the United States showing a travel route with several stops marked by orange location pins. The route starts in Denver, Colorado, and goes to Los Angeles, California, then to Dallas, Texas, and finally to Nassau, The Bahamas. The map includes state names and a scale bar for 700 miles.

WHY TRAVELINX?

TRAVELINX is a one stop shop integrating all of the important business travel information such as weather conditions, online check-in details, and more, accessible via a single user interface. With TRAVELINX complete trip planning is simple and easy. TRAVELINX empowers the traveler through providing seamless synchronization with Outlook and other meeting calendars and provides point to point directions to optimize routing and navigation.

TRAVELINX gives more control over personal preferences, travel options and the ability to customize travel plans, featuring:

- Travel itinerary service
- Personal navigator
- Optimized trip routes
- Synchronization with Outlook calendar
- Trip sharing details for social media platforms
- Corporate level security environment

CALENDAR

There's more to travel than getting there and getting back home. TRAVELINX provides the ability to keep all appointments in one place and easily synchronizes this information across all devices. TRAVELINX automatically keeps track of where a traveler's appointments are, not just when.

EASY TO USE INTERFACE

TRAVELINX uses the latest technology to create a one stop shop for the traveler on the go. TRAVELINX provides an easy to use interface to useful information and services such as weather information, online check-in, airline information, and more.

SECURE CORPORATE ENVIRONMENT

TRAVELINX supports the stringent data security and control that corporations require, backed by TRX's robust data management and security foundation. TRAVELINX security features include: PCI compliance, USEU Safe Harbor, US FISMA/NIST standards, and HIPAA.

NAVIGATOR

When on the go, what is more important than the next appointment or meeting? With TRAVELINX, a traveler will know where and when that next meeting is and have the information needed to get there quickly. TRAVELINX provides a view of travel plans like no other - all easily navigated on a map with turn-by-turn driving directions.
