

PROFESSIONAL
SERVICES

The TRX Professional Services team advises companies how to improve operational efficiency, drive down costs, and better utilize technology solutions.

WHY TRX PROFESSIONAL SERVICES?

The TRX Professional Services team has traveled the world, analyzing clients' operations and recommending re-engineering opportunities, technology adjustments, and potential partnership or business development initiatives that increase efficiency, decrease costs, and provide additional revenue streams.

Any time is a good time to work with the TRX Professional Services group. For a travel company, there are specific events and projects that benefit more than others from the insight of an outside resource. The TRX team specializes in supporting companies as they tackle enterprise projects, including:

- > Expansion into new markets
- > GDS migrations
- > Expansion into new regions or countries
- > New client acquisition and implementation
- > Integrations related to mergers and acquisitions

TRX Professional Services representatives are seasoned industry veterans with travel and technology expertise. Our knowledge and experience will help ensure your operations and technologies run as smoothly and efficiently as possible.

NOT YOUR TRADITIONAL CONSULTING MODEL.

TRX Professional Services engagements have a specified time frame. Analysts return an assessment with recommendations within seven days of the onsite visit. Engagements follow an established process, deliver actionable feedback, and provide a strong return on your investment.

The standard North American offering for TRX Professional Services engagements includes the following activities and deliverables:

- > Initial needs assessment and discovery call
- > 20-hour onsite assessment
- > Comprehensive evaluation and recommendation document
- > Post-visit call to review recommendations document and discuss next steps
- > Price: \$6,000 USD + T&E expenses
- > Longer engagement pricing and pricing for companies outside of North America available upon request
