YOUR NEEDS > OUR SUITE

TRAVELTRAX Standard

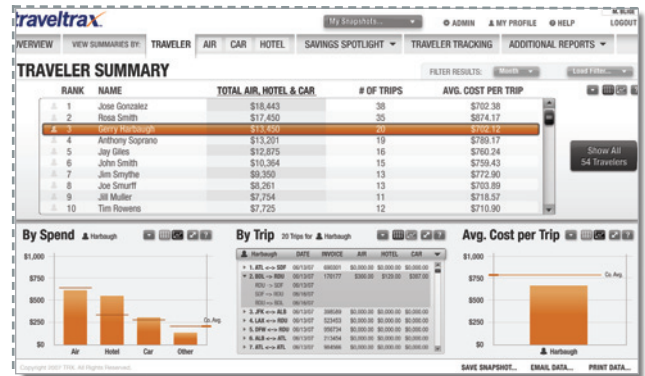

Includes Web-based reports with consolidated, summary travel information through leading-edge presentation tools driven by Web 2.0 interactivity. Easy-to-use executive overview, air, hotel, city, and car dashboards help companies realize potential savings and proactively manage travel spending decisions and budgets.

TRAVELTRAX Professional

An advanced travel reporting solution for high-volume, multinational, and more tightly-managed corporate travel programs in need of customized and detailed travel reporting and business intelligence functionality.

TRAVELTRAX Enterprise

Benefit from all the features of TRAVELTRAX Standard and Professional, leveraging robust, enterprise infrastructure and functionality. TRAVELTRAX Enterprise offers unlimited customization, as well as unlimited data feeds, analytics, and file delivery options.

Traveler Summary: Detailed information on travelers provides insight necessary to understand spending habits that are out of compliance, identify rising cost categories, or track trends that could lead to cost-saving policy changes.

Air Summary: See what is driving a cost or budget variance by viewing more detail on an individual spend category. Air Summary reporting identifies savings opportunities by providing you with clear, visual insight into trends and activities that are driving up your costs.

Corporations want simple access to high-quality, objective, consolidated data – and clear recommendations on how to control and reduce travel spending. With TRAVELTRAX, you get clean, complete travel data you can trust, allowing you to take action with confidence to reduce costs. TRAVELTRAX demystifies the murky and inconsistent world of travel spending and enables you – both the career professional and the more reluctant travel manager – to successfully manage your global travel spending.

TRAVELTRAX makes it easy for you to control spending and maintain budgets – and ultimately save money through reduced travel expenses and better supplier contracts.
