

TRUEXPENSESM is an on-demand expense reporting solution that delivers a “best-of-both worlds” tool to provide CFOs with increased visibility into travel and entertainment expenditures and employees with a user-friendly solution to submit expense reports.

Show Me the Money

TRUEXPENSE is easily configured to give CFOs or corporate administrators insight to the activity that is most important to the company. TRUEXPENSE displays a “spend vs. budget” feature that is missing from competitive solutions. With this enhanced visibility, CFOs have a clearer view of corporate travel and entertainment expenses.

WHY TRUEXPENSE?

With increased budget pressures and decreased predictability of cash flow, CFOs need to improve visibility into corporate travel and entertainment expenses. At the same time, employees are looking for a simplified tool for capturing receipts and submitting expense reports.

Executive and employees alike are drawn to the solution’s user-friendly desk-top and mobile functionality, including a mobile app that allows travelers to photograph receipts and upload them directly into their online expense report. This means end users no longer have to worry about keeping track of receipts.

With TRUEXPENSE, companies can:

- > Improve productivity by reducing the manual labor involved in importing itinerary information and completing expense reports
- > Configure the TRUEXPENSE dashboard to display the data that is most important
- > Use a search feature to find expenses quickly
- > Export expense data into accounting systems to automatically update general ledger accounts

FEATURES → BENEFITS

- Simple snap-and-send process that automatically captures and uploads receipts into the user's online expense report

Reports Done Right

TRUEXPENSE pre-populates much of the necessary information needed to create reports – significantly reducing the amount of time end users need to spend on the expense reporting process.

Calling All Road Warriors

With a mobile-ready application, TRUEXPENSE enables users to photograph their receipts from their iPhone or Blackberry and upload the image into the expense reporting software. This functionality puts an end to the receipt worry dilemma for end users whether they are on the road or simply attending a lunch meeting at the client's favorite local restaurant.

SPEND. SNAP. SEND.

TRUEXPENSE simplifies your expense reporting processes and helps your corporation reduce its T&E spend by providing a seamless booking, expense and data analytics experience, giving you the full picture of your T&E costs. With our powerful mobile application and user-friendly web interface, road warriors will spend less time thinking about expenses and more time growing your business.
